Transfer your certificate to PECB MS
PECB MS as a leader in the Management Systems Certification field provides the highest level of services and expertise in the world of standards. PECB MS delivers an exceptional commitment to its customers through service excellence, support and trustworthiness. Hence, PECB MS is dedicated to preserving the integrity and assisting your business towards a sustainable growth. The experience and expertise shown emphasizes our commitment in empowering your business success.
Transferring your certification to PECB MS can be described as the easiest and smoothest process you have ever encountered as a customer. Our transfer process follows a simple method from the initial contact of showing your interest in transferring your certification to the final process of accepting your transfer to PECB MS and becoming part of our global network of certified companies.
PECB MS Transfer Process

Don’t waste your time! Transfer your certification today to PECB MS. By following these simple steps, the process of transferring your certification will be carried with minimal efforts:

1. Create an initial contact with our Management System Certification Department at ms.processing@pecb-ms.com while requesting to transfer your certification to PECB MS.

2. Complete the application form provided from our team and send the following required documentation:
   - Last audit report
   - Status of outstanding nonconformities
   - Valid certificate issued by an accredited certification body
   - Stage of the current certification cycle
   - Reasons for seeking this transfer certification
After the successful review of your documentation, PECB MS will be able to determine the audit duration and next steps based on your current certification cycle. In the meantime, your previous certification body will be informed that you will no longer wish to maintain your certification with them.

Upon successful completion of the audit, including verification of implementation of corrective actions for outstanding major nonconformities and accepting plans of corrections for minor nonconformities, a PECB MS Certificate will be issued, while respecting the dates of the previous certification cycle.

Now you can celebrate your achievement!
The benefits of transferring your certification to PECB MS

- Internationally recognized accreditation by IAS
- Competitive quotation with no hidden fees
- Diligent, thorough and reasonable auditors
- Assurance of qualified auditors with knowledge of your industry sector
- Accountability – to your systems, your customer and the standard
- Transparent communication and hasty replies
- Experienced professional staff and auditors

Please note: The certificate which is known to be suspended, withdrawn, the certification cycle not maintained or has unresolved nonconformities will not be accepted for transfer to PECB MS.
